

White Label Transdermal CBD Patch

A reusable transdermal CBD patch that utilizes *hydrogel* and *nano technology* to provide a more effective and efficient CBD delivery system.

Benefits

Transdermal Delivery

Transdermal delivery bypasses the digestive system so you get 100% of the medicinal value of CBD

Nano CBD

Due to the microscopic size of Nano CBD, it is highly bioavailable and is absorbed into the body more efficiently

Hydrogel Technology

Our hydrogel adhesive is soothing and comfortable on the skin. The high water content of hydrogel allows CBD to be easily absorbed into the skin without causing irritation.

Reusable

Our patch can be removed and reapplied multiple times. Our hydrogel adhesive technology allows our patches to retain their adhesion over time.

Time-Release Formula

Our patch releases a steady stream of CBD through the skin and into the bloodstream over a period of time

Safe & Effective

Laboratory tested to ensure safety and potency

Made in the USA

Proudly made in the United States in an FDA registered facility

Symptom Relief

CBD patches are being used to help relieve symptoms such as pain, inflammation, anxiety, and sleep issues

THC Free

Our Nano CBD contains zero THC

All-Natural Non-GMO Ingredients

Distilled water, CBD oil, coconut oil, canola oil, soybean oil, sunflower oil, guar gum, carrageenan

Premium Packaging

We utilize a foil pouch to provide a strong protective barrier to ensure product integrity and quality

Custom Printing

Custom printing options are available on the foil pouch as well as on the CBD patch
