PODIS® Plus

Transform your inventory and payment management with PODIS Plus

Take the worry out of buying and billing for drugs

Transform how your practice works with PODIS Plus – a powerful integrated inventory solution tool created to take the worry out of buying and billing for drugs used in the office.

PODIS Plus offers your practice the ability to easily enhance productivity and manage essential back office, clinical, and administrative functions.

Operating as a daily support system, PODIS Plus provides sophisticated alerting tools that act an invaluable failsafe for your practice. Our alerting tools combined with the power of reporting delivers your practice a wide range of real-time data, gaining the information you need to make smart financial decisions.

PODIS Plus offers several types of reporting, including:

- Financial reports: to help identify unbilled or misbilled doses, profit per dose, and the value of current inventory
- Management reports: to track the use of PODIS Plus by staff, including placing of orders, dispensing product, and payment of invoices
- Inventory reports: to view on-hand inventory counts and valuations across locations in real time and see the same information for dates in the past.

What's new in PODIS Plus

Recent updates and enhancements

We're constantly enhancing PODIS and adding new features to streamline workflows help users get the information they need every day. These are just a few of the recent changes:

- You can now customize the home page dashboard to show the information you need at your fingertips
- Easier ordering: order straight from the inventory forecast report
- Better handling of manufacturers' 2D barcodes

Plus a full pipeline of new features coming in 2024!
